History [edit] Sledgehammer Games spent six to eight months working on the Call of Duty project in 2009, enough to produce a prototype with about 15 minutes of play.

[10] The game would have reportedly expanded the franchise into the action-adventure genre, and a legal battle between Infinity Ward, the studio behind the Modern Warfare franchise, and co-founders Jason West and Vince Zampella resulted in the pair's departure. They took several Infinity Ward employees with them to their new company, leaving Activision with about half the staff and a deadline of about 20 months (versus a typical BT

uty: Modern Warfare 3. Activision requested that Sledgehammer Games stop work on the third-person shooter and collaborate with Infinity Ward instead.

[7] The offer was a gamble for both sides. Activision was calling on a studio that had not put out a game on its own, while Sledgehammer Games would be abandoning weeks of work in the genre they were most familiar with to take on a punishing schedule in a franchise. The studio first polled its staff and got unanimous approval. "It was a massive risk for Schofield and Condrey's new studio, and one that most outside of the industry never considered," wrote Ryan Fleming in Digital Trends. "The Infinity Ward name was the marquis on the Modern Warfare franchise, but failure to deliver on Activision's golden egg would have resulted in a wave that crippled those in its path. Looking back at the success of that game and franchise as a whole, it is easy to overlook the chance Sledgehammer took."

[7] In 2024, while working with Raven Software on Call of Duty: Black Ops Cold War, the 2024 entry in the series, the two teams had differing i
