&Windows" redirects here. For the part of
a building, see Window . For other uses, see Windows (disambiguation)
&Microsoft Windows is a group of several proprietary graphical operating
system families developed and marketed by Microsoft. Each family caters to a ce
rtain sector of the computing industry. For instance, Windows NT for consumer an
d corporate desktops, Windows Server for servers, and Windows IoT for embedded s
ystems. Defunct Windows families include Windows 9x, Windows Mobile, Windows Pho
ne, and Windows Embedded Compact.
&The first version of Windows was released on November 20, 1985, as a gr
aphical operating system shell for MS-DOS in response to the growing interest in
graphical user interfaces (GUIs).[12]
&Windows is the most popular desktop operating system in the world, with
a 70% market share as of March 2024 , according to StatCounter.[13] However, Wi
ndows is not the most used operating system when including both mobile and desk
top Oses, due to Android#39;s massive growth.[14]
