the installation located on your
r, Then select Install to download and instalallthe game. Call of Duty:

Modern Warfare

The simple answer is no, as you

probably expected. A very few games (like Half Life Alyx) have been modded to allow play without a headset but they are clunky, rare and still require a capable PC, which it doesn't sound like you have. If you desperately need VRChat in your life, you'll need a headset.

Some VR games allow players to play

without a VR headset, for instance, Star Trek Bridge Crew or Rec Room but most other VR games will not allow this, for instance, Job Simulator or Beat Saber because they would basically have to make a 2nd game because of the control integration (keyboards, mice).
