Solar flares, on the other hand, directly affect the ionosphere and radio communications at the Earth, and also release energetic particles into space. Therefore, to understand and predict space weather; and the effect of solar activity on the Earth, an understanding of both CMEs and flares is required.

ESA - What are solar flares? - European Space Agency; esa.int : Science_Exploration : Space_Science : What_are_solar_flares;

Particles from solar flares can distort Earth's magnetic field, which in turn, disrupts navigation systems, cause surges in electrical systems causing damage and blackouts, and damage or disrupt satellites.
