</p>Best cod of the modern era, not that that saying much. The campaign was

fun enough, with interesting ideas such as dialogue options and branching missions, but overall it's hard to get invested in due to the state of the overarching COD storyline. I'm honestly can't tell if this is solely in the new MW timeline, a sequel to the old black ops storyline, or some weird fusion of the two that drags the old games into everything.

Zombies though, Zombies is genuine great. BO 3 is certainly the peak of the original zombies formula, but I dare say I almost like this more, gameplay wise. It is sadly missing a lot of the personality of the W@W-BO3, with MP operators as characters instead of a set crew being the largest problem. The HUD does also kinda suck, fine in function but lacking any character in the design. Especially compared to BO3, although I'd say it's still miles above BO4 with how cluttered that was.

All in all, I'd say it's worth it on sale if you really like

3; like cod zombies and skipped this one. It has a lot of rouge-like elements that can keep you playing for a while, plus a weapon/camo grind, if you're into that sorta thing. If you're not a fan of zombies, don't bother.
