<p>Minecraft Classic is an online version of the famous open-world sandbox
building game. It is a remake of the original 🔔 Minecraft and was rele
ased for its 10th anniversary by the developer Mojang. In the game, players can
build in creative 🔔 mode using 32 available blocks. The game has a mult
iplayer feature so you can play with up to 8 friends.</p>
<p>History</p>
<p>Minecraft 🔔 was first released to the public on 17 May 2009. T
oday it is published in the exact state of its 🔔 initial release. This
means that there are only 32 blocks that you can build with, and all the origina
l bugs 🔔 are in there! So if you are used to the latest version, it can
be quite a shock to see 🔔 how the game has evolved. To quote Tom Stone
from Mojang "With just 32 blocks to build with, all the 🔔 origina
l bugs, and an (inter)face only a mother could love, Minecraft 2009 is even more
glorious than we remembered!"</p>
