&lt;p&gt; Acheh, LumUT which was officiated on 24 July 1995 and have been in operation for more&lt;/p&gt;  
&lt;p&gt;han 20 years. Lumuti 8 , £ Port - Wikipedia en.wikipedia : wiki : Lumut h Port O O bet365 Contained&lt;/p&gt;  
&lt;p&gt;within a grand vaulted&lt;/p&gt;  
&lt;p&gt;.i.f.u.x.o.r.l/k/s/d/z/y/u/r/n/&lt;/p&gt;  
&lt;p&gt;&lt;/p&gt;&lt;p&gt;To fully exploit the constrained width, avoid loading the neighbouring structures and straddle shared utilities running under the site, the &#128737; house was constructed using a lightweight steel frame on a piled slab. The steelwork was prefabricated as a series of &#128737; portal frames that were craned down the alley and site-welded together. Given that every inch in such a narrow space &#128737; was valuable we chose to fully weld the connections and express the frame internally, even utilising the depth of the &#128737; steels to maximise the space.&lt;/p&gt;  
&lt;p&gt;Alongside the painted steel a simple palette of spruce plywood, douglas fir joists, terrazzo and cork &#128737; flooring enriches the interior. Externally the timber framed walls are clad in handmade pewter glazed brick slips with a patina &#128737; that reflects the changing light of the sky. Both the simply landscaped and planted rear courtyard and the garden in &#128737; front of the house enhance the feeling of space in this small dwelling.&lt;/p&gt;  
&lt;p&gt;This self-build project had a long gestation, fitted &#128737; in around professional and family life. The design and construction were developed as time and money allowed so whilst planning &#128737; consent was given in January 2014 and the ground works commenced in the spring of 2024, the building was not &#128737; completed until August 2024. We worked closely with friend and joiner Michael Tye to lead a small team of local &#128737; subcontractors and employed specialist fabricators for certain key packages as well as undertaking a fair amount of the work ourselves.&lt;/p&gt;  
&lt;p&gt;The &#128737; result is a unique and highly crafted home that is a testament to the commitment, effort and support of many &#128737; people. By replacing a narrow disused alley with this comfortable small home we hope to have enhanced the streetscape we &#128737; inhabit. As the building completes the terrace, so does the front garden - with the simple bin store, planting, level &#128737; access and bike parking we aimed to keep it open and reinforce the pavement line without making a hard boundary. &#128737; The development highlights the viability, both economically and spatially of small brownfield sites to provide high quality sustainable development at &#128737; a time of housing shortage. We see it as a model for other seemingly undevelopable urban gap sites where the &#128737; value added is through the quality of the architecture rather than ex
