<p></p><p>Football corners predictions is one of the fairly ne
w tips offered by tipsters and by us. Some say it's luck %o , predicting corn
ers in a football game, but we at AFootballReport find in corners very profitabl
e markets especially in live events %o , when odds go very high as the game evol
es.So how do we predict corners? Of course as any other football %o , prediction
and corners are related to a number of pre-match and team factors. First of all
we should see the %o , type of game we're looking for or the type of game we
want to predict. Is it a game with %o , a strong favorite or just two equally str
engthen teams that play. If it's a game with a strong favorite probably %o ,
we should pay attention to the corners race predictions as strong favorites alwa
ys keep the ball in possession more than %o , the other teams and create more cha
nces as they push forward almost during the whole game. Keep in mind in %o , live
events that if the score is in favor of the favorite team then this team would
not be so %o , motivated to create chances and would probably win less corners th
an in a draw event or from behind.</p>
<p>Second thing we %o , should use when making our corners tips is to see t
he teams lineups and tactic for the upcoming game. Target %o , teams with more o
ffensive tactics and teams that use wingers heavily in their attacks. For exampl
e, some good wingers for %o , the home team could easily produce more than 10-20
crosses in the penalty area which very often defenders clear in %o , corners.<
<p>
<p>Corners in the late stage of the game are more likely to happen than in
the early minutes. Usually teams %o , are very careful in the opening minutes of
a football game and they try to enter the game more passively %o , than aggressi
vely. As the game continues depending on whether a team is losing or winning the
game is leading to %o , pushing forward and sending more players to attack or de
fend. This leads to significantly increasing the number of corners in %o , the la
st minutes and that is what we want when predicting corners.</p>
<p>Spot derby games. Derby games are always poor in %o , goals, but very ri
