

O O bet365

<p>So, I got a soft blob-like thing, and I was tossing with it in a protot
ype for a very long 💲 time. It turned out that it's tough to invent som
ething new. Finally, I got an idea of a fat cat 💲 that likes to blow ba
lloons. The name of the game is Puffy Cat, and I'll be glad if you play 💲
; it on Poki!</p>
<p>The final version of the game has 150 levels, 26 hats, 18 balloon skins
, 225 sprites, 35 sound 💲 fx, and plenty of fun! And we agreed with the
publisher to make two more games in the Puffy Cat 💲 series with new ga
me mechanics and content.</p>
<p>What I like the most about Defold is that:</p>
<p>I use Defold IDE to make 💲 levels, i.e. I have quite a few pre
-made game objects to construct a level. Every level is a collection with ԁ
78; references to these game objects. All these levels linked to the parent col
lection as Defold's collection factories. It's an easy 💲 way to make le
vels without any external editors like Tiled etc.</p>
<p>All I need to run a game from sources is 💲 to download Defold
IDE and build/run a project.</p>
