s, common metrics include: duration, convexity, relative interest rate sensitivity, and credit risk. Procurement contracts are often subject to renegotiation and are typically awarded to the lowest bidder. The procurement process is often complex and involves a number of steps, including the preparation of a request for proposal (RFP), the submission of proposals, the evaluation of proposals, and the award of the contract. The procurement process is often subject to a number of risks, including the risk of non-compliance with the contract terms, the risk of cost overruns, and the risk of poor quality of workmanship. The procurement process is often subject to a number of risks, including the risk of non-compliance with the contract terms, the risk of cost overruns, and the risk of poor quality of workmanship.
